Salt Lake Men Playing an Important

ex-Coloradoans and ex-Californians by an old trick which seems entirely the rosy-cheeked Dick Colburn is one he leaders. Dick is particularly interd in Rep Top and Jumbo, two of the mines in the camp, and he peddles stocks or buys them at a rate which is the hair of the amateurs. Sam rmbath is another one of the Mormon wd who stands his ground well in a storall. Sam is the "company" of firm of W. F. Bond & Co., and stands dy to take all the Dixie stosk offered ow the stopping point. The Dixie is flotation of Broker W. H. Clark, ther Salt Laker. F. H. Lathrap is the retary of and a prominent operator on exchange. He is from Salt Lake also, a day this week Lathrap surprised the kers by taking every share of Kendall ered up to 23 cents a share. This stock is been slow at 19 cents for some time, thrap bought 25,000 shares before it is realized what he was doing. There is excitement and go about the change which makes each session insesting. It has not been under way ug enough to determine the effect it. If have upon the value of Nevada beks. Some of the promoters here were the opinion that a local exchange would we a tendency to depress prices for the ason that thousands of shares in all operties are held in camp. The merity were, however, willing to have the stock stand on its real merits, and e real merits are known in camp better, iturally, than on the outside. The relation of few. The good stocks are going and the poor stocks are being placed here they belong. One stock in which alt Lakers are interested has just been sted and was quoted at 2 cents. It was in Peerly-Montgomery.

A. L. Simondi, formerly prominent in epublican political circles in Salt Lake ity, is connected with Bond & Co., and if doing well. John Fairfield, who was ith Fisher Harris at the Commercial aid, is now drawing a salary as stenoglinher at the Goldfield rate, something ke fil per day. J. Donnan Reavis is now innecessing the result of the company. Goldfield City is steadily growing and taking on metropolitan airs. There are

ion company.

Goldfield City is steadily growing and s taking on metropolitan airs. There are early as many carpenters and masons at work as there are miners. Tents are lowly disappearing, and even old buildings hastily thrown together during the irst boom are being replaced with more jubstantial blocks.

Everybody Scampering From Tono-

A big rush is on from Tonopah to Stone abin, in the Kawich range, where a sentional discovery has pust been made the Clifford brothers of Stone Cabin, ich is the report brought in from Tonopah yesterday morning by Malcolm L. aDonald, the well known Nevada mining serator and engineer.

Jah yesterday morning by Malcolm L. 16. Donald, the well known Nevada mining perator and engineer.

"On Saturday when I left camp," said dr. McDonald during the afternoon, "anomobiles, saddle horses and all conceivible kinds of rigs were being pressed into ervice by those determined to jump in and investigate the new find. What it mounts to I am not able to learn beore leaving, other than that it was senational in character. Stone Cabin is ass of Tonopah and west of Revielle and orth of the former discoveries in the lawich camp. Excitement was intense to Tonopah so there is every probability hat the new discoveries are more than redinarily important."

Mr. McDonald says that all of the Neada camps are on the hum again now hat the heat of summer is passed and he work being done all along the line is for that character which rapidly converts rospects into producing mines. The fullifrog country, he says, is making a articularly fine showing at the present made the production of that region, e declares, will not be long in climbing a proportions that will astonish some of the older camps of the state and the after country, for that matter.

Mr. McDonald will probably leave for penver tonight, unless a party that he as to meet here in the meantime puts i an appearance.

the emperor of Russia establishing popul which was as effective in its way as the more sentimental effect on the world's population of the historic event. Probably the movement of the world's markably the movement of the world's preferred So. Railway Preferred Tenn. C. & ably the movement of the world's mark-ets was not intended as a final judgment on the system offered to the Russian peo-ple. But as an expression of bellef at the finding of a path out of the condi-tions which have been running in a crisis in the Russian empire the movement was of undoubted significance. The effect of the Russian situation has found its out-lef to the world's markets through Paris the Russian situation has found its outlet to the world's markets through Parls
owing to the enormous holdings of Russian securities by French capitalists and
the dread of financial consequences in
Paris in the event of a break down of the
government at St. Petersburg has been
the cloud which has most obscured the
financial prospect recently. Its shadow
on this market has been through the international exchange situation, owing to
the threat of depletion of the none too
ample bank reserves in New York by amole bank reserves in New York by withdrawals of gold to Paris to fortify the banking condition there. The news this morning was immedi-

The news this morning was immediately interpreted as lessening and probably averting the likelihood of gold exports from here at this time. The effect in the stock market was a greater degree of strength and more widely diffused than at any time in the recent trading. The volume of activity was not, however, greatly expanded and did not reach the aggregate of the most active days of last week. Outside participation in the market was reported to remain Superintendent Parley L. Williams, jr., of the Utah Consolidated properties at today with the November settlements Bingham, came in from camp yesterday and the call loan date was affected ac-

of ore from Tintie, five from Tononan and one from Bingham.

Two cars of ore from Tintic and Nevada, were reported at the Pioneer sampler yesterday morning.

Frank P., Swindler and St. Sample yesterday morning. Two ears of ore from Alta, two from Bingham and one each from Tintic and Nevada, were reported at the Pioneer sampler yesterday morning.

Frank P. Swindler and Sidney Bamberger in the lead industry on the part ger spent Monday inspecting the new strike at the Little Bell. in Park City, Both returned impressed with the magnitude of the ore bodies and their strong evidences of richness and permanency.

N. Treweck, president, and W. Mont Ferry, secretary, of the Wabash Mining retreat of a large bear interest was an element in the strength of the day's radical ket and some of the covering of chorts was reported to be for London are unit. The market had to take some of the inevitable profit taking on the day's gains by the professional element and some impression was made on the best pices by this process. The closing was fairly sterdy but dull.

Bonds were strong. Total sales, pur value, \$4,355,000.

J. R. Woodbridge, who has long been identified with the Taylor & Brunton Sampling companies, and who has been with Manager L. A. Copeland, of the local plants for the better portion of the last three years, leaves today to take the management of the Western Ore Purchasing company's new sampling works at Tonopah. The plant, which is located a few miles from camp, on the line of the Tonopah raffroad at the point where the Tonopah company's great milling and power plants are now being constructed, will be ready to go into commission within a few days. It is to be on the ground and see that everything is started off right that Mr. Woodbridge leaves today. During the years that Mr. Woodbridge has been with the Taylor & Brunton companies he has gained a perfect knowledge of the sampling business and he will not be long in making friends of everybody engaged in raining in the big Tonopah and surrounding camps.

Wool Market.

Boston, Oct. 31,—There is a renewed interest in the wool market.

The greater part of the business has been done by the woolen mills. The heavyweight season is not far away and many mills are without sufficient stocks. Fleece wools are generaly buiet, but strong. The general movement has taken place in all grades of Ohio and Pennsylvania fleeces. Fine washed delaine has been broken on price, a moderately large amount having sold at 37½ with the market urice at 33.

Siles of three-eighths and half-bloods amount having sold at 372 with the market urice at 33.

Siles of three-eighths and half-bloods have been quite frequent at 34@35.

In line with the activity in delaines, some it is expected has been sold at 38 and at 34, and delaines are in fair supply. A small business has been done in Michigan fleeces. Quarter-bloods are at 35@36. Fine unwashed is held at 25@26; half-bloods, 32@33, and three-eighths, 34 355.

GRAIN AND PROVISIONS.

Chicago, Oct. 31.—The wheat market was decidedly weak at the start, initial quotations on May being off % to 1 % at \$94 to 89%. Sentiment in the pit was extremely bearish and a general sellor, movement was in evidence. For a time demand was very light. Advices regarding the situation in Russia formed the principal cause of the initial weakness. Likelihood that the tie-up of the Russian railways resulting from political disturbances would soon be broken gave promise of continued exportation of grain from that country. This deprived the market of the main bullish factor. A report made by an English staticinal concerning the conditions of foreign crops was another bearish factor. This report was the the effect that the wheat or no of Russia was in good condition and that an official estimate placed the total yield of winter wheat at 219,000,000 bushels a year ago. A decline of 10114 in the price of wheat of Liverpool gave added force to the tearish dispatches. Wet weather in the winter wheat section of the United Status dispelled fear of damage by drought to the newly sown crop and gave add. 10 may remain unpaid on November 9, 1965, will be delinquent and advertised for saic at public auction, and, unless payment is made before, will be sold on December 2, 1905, at 2 p. m., to pay the delinquent

the lowest point of the day was reached at 90. December sold off to 88%. Much of the loss was subsequently regained on covering by shorts and on buying by the leading long. The market closed steady with May at 90% 191. a loss of %. December closed % lower at 89%. Early in the session the corn market was weak but became firm on an active general demand. Decomber closed % higher at 46%. general demand. December closed \(\frac{1}{8} \) higher at 46's.

The oats market showed a tendency to follow the movements of the corn market. December closed \(\frac{1}{8} \) lower at 30's.

The provisions market was a trifle easier. There were some wild fluctuations in the price of October pork and ribs on final settlements, shorts in ribs being compelled to pay \$1.50 advance at the close. October pork ranged between 15.05 and 15.50, closing 40 cents a barrel under yesterday. There was little now investment buying of the January product, pending the final outcome of the windup in the October delivery. At the close January pork was off 507'z, and
